Dear Sir,

I am enclosing a true copy of my letter addressed to your goodself on the 16th May 1949 and also a recent letter received from my son together with a reply I gave to him for perusal. I have detailed my difficulties in my letter teferred to above for permitting my the exchan e facilities for expanding my business in Philipines. I have been corresponding on this bubject from a very long time but no relief has been given to me. I am a Refugee from Pakistan and ever since my take up residence in this place I have never demanded any help from Government but I am maintaining myself on the meagre income and remittances received from my son. Since the business of my sons in Cebu City is so small that they could hardly maintain themselves with the result that I find difficulty in maintaining myself and other members of my family here. If the business is expanded there I may be in a better position. Further my financier whohas agreed to finance me for the business is likely to change his mind if further delay occurs thereby resulting a com lete shut down of business and consequent starvation of family. I appeal to you to consider my case ver sympathetically and grant me the necessary facilities urgently to enable me to continue my business there as I cannot shift it to any other area since I have been carrying on business in this plac which is more or less hereditrary. Considering my pitiable case and being a refugee I am entitled to all the help under your kind command and I am sure that you will spare no efforts to give me relief in this matter. May I expect a favourable re ly at your earliest convenience.

Dear Sir,

The undersigned is a refugee from Pakistan having taken up permenant residence at this place. I am merchant by proffession doing business in foreign countries which has been by heriditrary line. My two sons are now in Cebu City Phillipines islands doing a small business and their income is my only source of my maintainance for myself and my family members. I possess no other property nor any valuable movable articles to depend upon.

I had applied to the Government of India Finance department for a permit for exchange facilities of 20,000 Gold dollars to Phillipines in order that my sons may improve the business. My sons have taken up a big business apartment there and have been paying more rent since a year and could ~~start~~ not start a big concern due to want of finance. I had arranged for a loan here and my partner has also agreed to finance the same but the difficulty arose in regarding the exchange facilities. The Government of India in response to my request have informed me in their communication No:584-AF-I-49 dated 22nd February 1949 that they would consider my request sympathetically if I desired to rehabilitate my business in a soft currency area to which I again wrote the difficulties in restarting business in an unknown country and consequent difficulties. I further recieved a communication from the Government of India in their letter No:959/EFI/49. dated 9th March 1949 that they are unable to reconsider my request to which I again appealed narrating my circumstances in full for which no reply has yet been recieved.

I may point out to you that the delay in grant of exchange facilities may result in my financier changing his mind and consequently the business now on hand may result in a failure and ultimately bring ruin to my family as I am entirely dependent on this business. Further I am losing the amount of rent which I havebeen paying for nothing to the shop engaged. I assure you that the amount so invested in my business will be recouped within a period of three years. Considering all aspects of my case I request to symapathetically reconsider my case and grant me the necessary facilities at an early date so that I may not be put to further loss and anxiety. This act of kindness that may be shown on me will result in a family coming up and preventing from starvation.

Thaking you in anticipation.
